

Devotion to Christ

Westminster Christian Academy was established with the recognition that in life Christ needs to have preeminence in all our activities. Our education is unique because we endeavor to teach every subject through the lens of Christian truth and understanding. Our goal is not education with a Christian veneer, but truly Christian education, where the student begins to see the impact that their faith in Christ has on not only their Bible classes, but also how it impacts their work ethic, their athletic achievement, their relationships and their future.

Westminster seeks to employ a wisdom based disciplinary process, where students are not just simply punished for doing wrong, but where they are corrected and admonished by the substantive and authoritative word of God.

At WCA students are not only taught Bible courses, and classes from a Christian worldview, but chapels are scheduled on a weekly basis. The superintendent, the principals and teachers are commonly called on to share insights that they have gleaned from their study of God's word. In addition pastors and youth pastors, Christian college teams, evangelists and special speakers have also been asked to bring the Gospel to us, even as we endeavor to train children to bring the Gospel to the world.

Westminster employees love the Lord Jesus Christ, and it is their desire to see His kingdom grow and come. It is that unique perspective that drives us all to serve Him with excellence, by teaching the students that He sends to us.
