

“Turning little faces toward God.”

Westminster’s pre-school offers classes for children ages three, four and five on both the Lafayette and Opelousas campuses. Children are nurtured and trained in a safe environment by teachers who love God, love children, and love to teach.

The WCA pre-school consistently integrates character development through a wisdom-based approach to education. This paves the way for the systematic introduction and teaching of phonics, reading, writing, and arithmetic. Completion of the pre-school program establishes a strong foundation in academics, as well as spiritual growth, which is the basis for success academically and relationally in the elementary years.

All pre-school students participate in weekly enrichment activities, which may include, art, library, physical education, cooking, drama, and/or library. The daily schedule includes snack time, morning and afternoon recess, and an after-lunch rest time.
